SPECIAL INTEREST

- Improves productivity with advanced features and easy to use controls
- Eliminates costly power issues associated with shore power and low cost generators
- Fast material heating gets you up and running quicker
- Improves spray performance with consistent pressure at the gun
- System pulls the heat from the diesel engine to heat the A and B materials
- Smaller generator saves diesel fuel costs
- You benefit from an annual fuel savings on average of \$7,000 (your actual savings may vary)
- Tracks project information
- Lets you download data onto a USB drive for further analysis
- Stores up to 24 chemical foam recipes
- On-screen troubleshooting advice
- Flexible system settings
