

SERVICE PARTNERS - DELIVERING SERVICE *PLUS* VALUE

Service Partners E20 Portable Spray Equipment

Service Partners introduces the new **E20 Portable**. This is the perfect solution for difficult to access projects such as high rise buildings or even as a second rig that can be permanently mounted into the vehicle or trailer of your choice.

The **E20 Portable** is centered around the reliable Graco Reactor E20, a mid-sized wall foam proportioner that provides 20 lbs. per minute maximum output capacity, 6,000 watt fluid heaters a maximum working pressure of 2,000 psi that can accommodate heated hose lengths up to 210 feet.

In keeping the overall size down and portability up, the complete package is mounted within a custom security enclosure that allows you to maintain a safe and secure work environment, even when your crews are not on site. Both the equipment and barrel enclosures are mounted on rolling casters that can be easily rolled though a standard man door.

Standard E20 Portable Package includes:

- Graco E20 Reactor, 230v single phase
- 110' of heated hose, 2000psi rated with scuff jacket
- Graco Fusion A/P gun
- Graco T1 supply pumps and hose package
- Ingersoll Rand 7.5 hp, 2 stage air compressor
- Air management control system - including regulators and pressure gauges for transfer pumps & spray gun
- Graco 3-stage air dryer
- 100 amp main disconnect panel with 50' of shore power cord
 - 4 gauge, 3 conductor ESO cord
- Custom security enclosure for both reactor & barrels
- Custom canvas covers for barrel & reactor enclosures
 - Helps control climate of SPF chemistry
- On-Site training by Service Partners Spray Foam Specialists
 - Equipment, Chemistry and Safety Training
