ENERTITE® Max Open-cell Spray Foam **MAXIMIZE** Your Performance

ENERTITE® Max is a low-density open-cell SPF insulation, formulated for high-yield application performance while meeting GREENGUARD Gold standards. It is ideal for insulation and air sealing applications in residential and commercial construction. ENERTITE Max provides contractors with improved yield, consistent thermal values, and superior overhead application performance.

Get more with less, with ENERTITE Max:

- Less time needed for setup and processing
 - Simplified mixing before & during application on the B-side
 - No recirculation or preheating required if SPF materials are >70°F
- Less dripping - fast reaction and less “rain” from overhead
- Less staining – easy removal from floors
- Adheres well to itself
- Easy sprayability
- Coverage rates 20K-22K bd. ft. per set
- Less material used = MAX profitability

Other Product Features and Qualifications:

- GREENGUARD Gold certification
- Documented low-VOC material for improved IAQ
- Quick re-entry time (2 hours for other trades with proper ACH)
- Easy to achieve uniformity and target thicknesses
- NFPA 285 complying assemblies available
- UL-fire resistance rated assemblies available
- INTERTEK Code Compliance Research Report CCRR-1032
- MAXimize yield – MAXimize productivity – MAXimize profits
